

**FOR IMMEDIATE RELEASE**

**East Coast Sales Office  
Announced at Interface Displays & Controls**

**Oceanside, California — January 20, 2015 —** Interface Displays & Controls (Interface), a leader in advanced cockpit control technology and exterior aircraft lighting products, recently contracted with Colonel John J. Moyer USMC (Retired) of Avionic Displays and Lighting, Inc. (ADL) as the East Coast Sales and Marketing Manager for Interface Displays & Controls, Inc. “We are very excited to welcome John to the Interface team. His proven leadership, industry knowledge and experience are valuable assets for Interface’s advancement in business development, and we look forward to company growth with his guidance and direction” said Bill Lang, President & CEO of Interface.

John will be responsible for managing the development of new business on the eastern coast of the United States along with supporting existing accounts in that region. John’s distinguished and extensive military and operational career along with his broad business background and proven executive abilities make him the ideal candidate for this position.

**About Interface Displays & Controls, Inc.**

Interface has been supplying innovative and reliable products to the military aviation industry for more than thirty-nine years. The company specializes in the design and manufacturing of cockpit controls, display devices, data transfer systems, rugged computing devices, keyboards and exterior aircraft lighting for both military and commercial aircraft. All products are available with Night Vision (NVIS) compatible lighting and are useable in applications for aviation, marine, search & rescue, police, surveillance & security, as well as land vehicles and weapon support systems.
